

EXPLODING HEAVENS

A CHILDREN'S OBJECT LESSON FOR CHRISTMAS

½ cup of Clear Sky (Hydrogen Peroxide)

Big squirt of Joy Juice (Joy dish detergent or any dish detergent)

Drops of Excitement (food coloring)

One Table Spoon of night lights (yeast dissolved in 3 tablespoons of warm water)

Empty clear container and large tray to catch exploding heavens

Measure ½ cup of Clear sky (hydrogen peroxide), and carefully pour it into the container

Add a big squirt of Joy juice (dish soap) and gently swirl to mix

Add a few drops of Excitement (food coloring) and swirl gently

In a separate measuring cup mix together one tablespoon of Night Lights (yeast) and 3 TBS of warm water; stir for about 30 seconds

Pour Night Lights mixture into bottle then step back and watch the exploding heavens
